

Accelerate Strategic Growth

Control Buyouts Across the Services Economy

Longshore Capital Partners is a leading private equity fund that invests alongside founders and management teams in businesses with durable value propositions in growing end-markets. Our thematic investment process is targeted toward specific subsectors within the broader services landscape. During our ownership, we use a collaborative approach to execute a shared value creation plan with our management teams. Each tailored value creation plan is strategically positions each platform as an attractive asset for future buyers and is anchored by the following tenets: revenue growth, acquisition program strategy, management talent expansion, and productivity and infrastructure enhancement.

Investment Criteria

Size / Geography
